### Classic Old Time Radio @ OTR-Board.com!

Featuring the best of old time radio, our [Listening Room](#) currently has over 1568 top episodes from over 174 horror, mystery, suspense, sci-fi series - about 9 GB, with **terabytes** more to add (thank God for streamload.com!).

Separate registration is required for the Listening Room. You can register free or use this id and password

username: xoopsguest

password: xoopsguest

You'll find an additional 1889 episodes in our [Podcast Directory](#).

#### Theme:

**Black Tie** thanks to msdana @ [Graphic-Worx.com](#)

#### Main Modules

**The Listening Room** This section utilizes a non-XOOPS script with a pagewrap by the tinycontent module.

**Podcast Directory** RSS Center (a.k.a rssc .3) from [Happy Linux](#)

**Chat Room** Wizanda's Tidy version of Shoutbox using Peak XOOPS' tinyd module to hold the shoutbox block

**Downloads** Pemen's recent [xplorer module](#). You'll need to use the conventional XOOPS site registration to access this section (gotta protect my bandwidth 😊). Registration is free.

**Links** Web Links, another great module from Happy Linux.

**OTR Shop** Another non-XOOPS script using the Content module to wrap it into XOOPS

**Photo Gallery** A small, but growing, archive using the MyAlbum module.

And especially for davidl2 who mentioned it in a previous post, Orson Welles & The Mercury Theater's [The War of The Worlds](#)

[OTR-Board.com](#)
