

GoogleMaps 0.8 for Xoops 2.2x - Modules

NEWS_PDF_AUTHOR: Marco

NEWS_PDF_DATE: 2006/9/17 18:20:00

This version of GoogleMaps module is dedicated to Xoops 2.2x only. That version has been released [recently](#).

Due to the fact that Xoops 2.2x uses a dynamic management for Profile data, some adaptations have been made so that the Profil Centric template is fully operational.

Please read readme file before installation/ upgrade.

[Download](#)

[Demo](#)

Rem :

- To Xoops 2.x users: you will find the 2.0x version [here](#).
- current dev are dedicated to a better category management (be able to associate a dedicated marker per category) and to blocks
