Swi9a.com is now known as a reference in Morocco.

Our goal is to entertain our visitors that are, in more than 95% cases, Moroccan, in a funny and positive atmosphere, never involving one single popup/popunder nor spywares.

Presently, Swi9a.com is amongst [the biggest moroccan communities](#)

For all our media needs, we always used and still stick to Xoops, that provides a secure (alongside with Protect module), reliable and efficient infrastructure.

Our thanks go to the Xoops team!
