The [XOOPSDesign.com](http://XOOPSDesign.com) team has been working hard these days (actually the last 365 days +more), having already +40 and more themes available at the premium membership and +100 custom designs and support given to clients. We've been looking into the more advanced design concepts and getting closer to leaving those tables behind (there still a couple of them left though 😊). Having the CSS do the same things of your inspiration is a great challenge but we're happy about that 😊 and of course trying to make XOOPS a better place every day.

### What's New at XOOPSDesign.com?

We've done a set of 3 themes, 2 corporate and 1 focused as a news portal, the recent ones all based on [mor-pho-gen-e-sis](#), you can read all about it's genealogy at it's news article.

The themes shown below make part of the [Premium membership at XOOPSDesign](#)

We are preparing a document trying to explain the enhancements that XOOPS version 2.3 brings to theme designing and working on a free theme that soon will be published.

### The Promotion!

**For New Premium Members and Returning Members:**

#### **6 month membership users:**

We will raffle (like a lottery) a 1 yr hosting plan + 1 domain with 5 GB space, 250 GB transfer, 10 MySQL databases, among every 10 new members at <http://www.xoopsdesign.com>; membership plans starting from \$49 USD . The winner will be published in a news section at xoopsdesign.com each time.

#### **1 year membership users:**

You will participate of the raffle of the hosting plan explained above +plus we'll make you a custom theme designed according to your requirements, **yet it will be published as a xoopsdesign.com premium theme for all members to download, and extraordinary**

**design process would have extra charge.**

You are all invited.

Thank you.
