Simple Weather Module Released - Modules

NEWS_PDF_AUTHOR: dpfresh

NEWS_PDF_DATE: 2006/9/27 10:30:38

A simple weather module with a weather block, module page and options to choose from multiple cities and Fahrenheit or Celsius. This module is English only at this point in time.

Features:

- XOOPS group permissions integration
- Weather Block
- Choose between Fahrenheit or Celsius
- Give users choice of several cities to view
- Several config settings in preferences

Download from Xoops Dev site or this site when it is available in the module repository. Support is at the Simple Weather Module Dev. Developers Web Site: www.picharddesign.com
