[Emma Watson Online](#) is an [Emma Watson](#) fan site running on XOOPS. It is very much customized, such as URL rewriting on the news module and the xfguestbook module.

Currently, we have 8000+ members and growing everyday. This site pushes XOOPS to its limits, with the fastest page execution times of ANY xoops web site. Our front page is generated in about 0.0195 seconds with 5 queries total when logged in and 3 queries when logged out. Extensive caching of other pages also makes the site run very fast.
