Hey everybody,

TheAcid, my gameclan, runs Xoops for a while...

Our site use Xoops 2.0.13.1, and the themes 4thfort and casafree (great themes, guys.)

[The Acid gaming clan](#)

We have currently very few members, so we would like to ask the gamers of the Xoops community if they are interested about gaming in a little clan, wich play (mostly) GuildWars: Propehiecies, GuildWars: Factions, GuildWars: Nightfall (soon), Knight Online, etc..; Contact me on this page for info:<http://www.the-acid.eu/clansite/modules/contact/> (also available for non-registered users).

We search also somebody who can help us with creating a guildwars theme...

See ya !!
