We have added 65 themes to our [theme demo site](#). This site is for testing themes before using on you xoops site. We have created some custom blocks in every block position and added some images to the blocks. So you can view the theme as it is on a real site.

In download section you can find 36 downloadable theme. The number of themes will increase if we have more time to work on. You can view the theme demos by selecting from the "theme select" menu and if you like one of them you can download from the "Download Section"

Our theme demo site url: <http://xoops.parakazanin.com>
