Beta test of Dj Rotator - Modules

NEWS_PDF_AUTHOR: culex

NEWS_PDF_DATE: 2006/10/11 10:24:46

This module is perfect for radio stations and others who would like to show what they're up to "Right now" in a block on their website. As seen with the "Now playing" signs elsewhere.

It's still a bit buggy as it needs cleaning up a bit, but I am no expert so I hope others will help :o)

You can download here Culex Dj Rotator 1.0

And see the demo on Culex.dk
