

bdwtheme1 & bdwtheme2 Updates - Themes

NEWS\_PDF\_AUTHOR: BDW

NEWS\_PDF\_DATE: 2006/10/13 15:05:47

Updates for bdwtheme1 and bdwtheme2 are now available for download.

These updates contain fixes for some bugs which were not noticed in testing. Changes were made to the CSS file to get these errors ironed out.

Also, the XHTML of these themes now validate (as long as your blocks & modules use correct syntax) at w3c.org. You will notice this if you point the w3c.org XHTML validator to my home page (<http://www.bdwwebs.com/home>).

You can download them [NOW!](#)

If you encounter any problems with my themes then please let me know.
