

IStats 2.2 (bugfix release) - Modules

NEWS\_PDF\_AUTHOR: metropolis

NEWS PDF DATE: 2006/11/22 12:50:19

I have released a bugfix release 2.2 for the Xoops web statistics module Istats.

It is mainly version 2.1 from a guy named "sylvainb" whose website (http://www.123rando.com/) has been taken over by a domain grabber. I was not able to contact sylvainb, so I took over this module.

## The bugfixes are:

- \* Istats now considers the server's timezone as set in the Xoops general settings.
- \* minor fixes in the German language files

I have included German and English language files. You can download it from the German Xoops support page.
