

Japanfile site updates theme - YAXS

NEWS\_PDF\_AUTHOR: noisia

NEWS\_PDF\_DATE: 2006/12/8 8:28:01

Most Xoops sites can be recognised immediately by their design. It is said that other CMS systems like Mambo are more flexible with design.

We engaged a designer to improve the look of our xoops site and I am quite impressed with the result.

<http://www.japanfile.com>

The design was done by a friend of mine: <http://www.nathanhanners.com>
