

Polls on newBB - Hacks

NEWS_PDF_AUTHOR: xtremdj

NEWS_PDF_DATE: 2002/7/30 14:22:57

For those who wants XoopsBB looks like PhpBB, i've hacked some files of newbb in order to permit user who want to create a topic, to create a polls associated with.

It uses class files of the xoopspoll modules and the text (2 or 3 only) are hardcoded in english in the forumform.inc.php

You could see an exemple in french [here on my website](#)

[Download here](#)

Hope the team will add this features in the next release 😊
