OSGamer is gaming portal dedicated to Open Source gaming. We have created this site in belive that fun and joy is fundamental human right of every man, woman and child on the world!

Like this we are supporting Open Source Community and Game Developers, and also all gamers looking for good OS and free games.

Open Source Games are future of gaming and they have advantages over commercial ones that can be described in few sentences:
- They're free!
- In most cases supported by all operating systems
- Serials and universums will never die, allways will someone continue work
- Development is continous, allways something new
- Source code is available and players can contribute
- You, as player, can demand features and give storyline tips
