I am very pleased to announce the Grand Opening of http://squareconstruction.com (Square Construction) This new website is built using XOOPS 2.0.15 plus my wireframe W3C compliant theme (modified slightly).

As with all of my most recent sites, this site makes exclusive use of MultiMenu for menuing. This site also uses MyAlbum and requires no user registration whatsoever-- it is an open information sharing site. 😃

Please stop by and visit the site (sign our GuestMap) and let me know what you think.
