[XOOPS Groups.com](http://xoops.groups.com) is pleased to announce the re-opening of our fully-renovated XOOPS Site Showcase!

The site was originally designed as a directory for XOOPS devs and designers, with a separate directory for general XOOPS-based sites. We've consolidated the directories and expanded the categories to cover dozens of topics.

**ALL** XOOPSeers are invited to add your site to our listings, promote your sites and show the world just how versatile XOOPS can be.

**NEW FEATURE XOOPS site RSS Feeds** We've added a section to display the RSS feeds from any XOOPS site that chooses to make their feeds available. Getting your feed listed is a snap. Just register free at our site, add your site to our directory and be sure to include the RSS address of your site's feed. If you're unsure what your RSS address is, just enter <http://your-site-url.com/backend.php> to the RSS feed section of the Submit form. We'll take care of it from there. (Please replace "your-site-url.com" with the actual url of **your** site.)

**NOTE TO PREVIOUS USERS** Please be sure to update your site's information in our listings. Many of the sites previously listed have undergone changes. We want to make sure all of your site's information and banner images are up to date. You may also want to ensure that your RSS feeds are included.

Stop by today, [add your site to the directory](#) and show the world what XOOPS can do!
