xf_hokamp_2007_blue - Themes

NEWS_PDF_AUTHOR: studioC

NEWS_PDF_DATE: 2007/2/24 19:00:32

Here I am with a xoops theme version of my "xf_hokamp_2007_blue" which is made for xoops gte (>= greater than equal) 2.0.16, XHTML 1.0 Transitional and valid CSS.

It's a "width:770px; centered layout" theme with a right siteblock only. XOOPS left and right blocks will appear in this sidebar when set active. To get a layout without a sidebar for eg. "edituser" or e.g a forum, just go to blockadmin and set no blocks active.

download: xf_hokamp_2007_blue

Within the download you will find sourceimages in fireworks png and the original graphic from openclipart.org that is used within the header.
