After some lull we are reviving the contests on the [AdobePhotoshopContest](#) site.

The site was initially set up to supplement the contests we were running through our [AdobePhotoshop Yahoo Forum](#)

There are some awesome prize packages offered from multiple contest sponsors this month for you Photoshop enthusiast. This is your invitation to join and participate.

Please check out the site. It is a XOOPS 2.0.13 site, any suggestions or comments on improvement would be greatly appreciated.
