

Guestbook Plus - Test - Hacks

NEWS_PDF_AUTHOR: Pitiless

NEWS_PDF_DATE: 2002/8/6 22:39:10

Based on Digitalpixel's Guestbook from <http://www.myxoops.org>

New features:

Avatars for guests

Avatar of the members will be automatically taken

female / male

Administrator can write comments for posts

Avatars and female / male pictures can be simply configured with config.php

[Guestbook Plus](#) ... change simply your language 😊

You can test comment function when you register (delete of user account enable) ... normally only for administrators 😊

Greetings

Piti

Based on Digitalpixel's Guestbook from <http://www.myxoops.org>

New futures:

Avatars for guests

Avatar of the members will be automaticly taken

female / male

Administrator can write commets for posts

Avatars und female / male pictures can be simply configured whith config.php

[Guestbook Plus](#) ... change simly your language 😊

You can test comment function when you register (delete of user account enable) ... normaly only for administrators 😊
