

OperatingSystemNews.com theme - Themes

NEWS_PDF_AUTHOR: tim1980

NEWS_PDF_DATE: 2007/4/6 16:44:35

This is a xoops theme that I made, for <http://www.OperatingSystemNews.com>

This is a hacked theme I got from some other site and had to change lots of stuff to make work the way I wanted... this is like my first kinda Open Source product or thing I've made then put online for others to benefit from.

So enjoy it webmasters out there who may find this interesting.
