

WF-Sections 1.02 (Security BugFix) - Modules

NEWS\_PDF\_AUTHOR: Catzwolf

NEWS\_PDF\_DATE: 2007/4/10 0:03:23

This is a security bug fix for WF-Section v1.0.1. All users of this version are strong urged to updated this module ASAP.

There is a bug in the print.php file that would allow a malious user to gain access to your website.

There is also a real bad bug that could crash a server (With PHP5) and thus we recommend that you update ASAP.

This module should run with Register globals off now.

Fixed a few other bugs:

1. Top ten articles show submitted unpublished articles.
  2. Fixed Date issue in article admin area.
  3. Fixed Broken file issue
- and a few other bugs.
