

Jobs 2.42 Bug fix version - Modules

NEWS\_PDF\_AUTHOR: jlm69

NEWS\_PDF\_DATE: 2007/4/21 12:43:41

I have released a new version of the Jobs module.  
It just addresses the bug that the Xoops Editor wasn't working properly in Internet Explorer.

You can NOT just overwrite the files for an upgrade, read the README file for instructions.

You can get the module

[HERE](#)

Thanks,

John
