

Jobs 2.42 Bug fix version - Modules

NEWS_PDF_AUTHOR: jlm69

NEWS_PDF_DATE: 2007/4/21 12:43:41

I have released a new version of the Jobs module.
It just addresses the bug that the Xoops Editor wasn't working properly in Internet Explorer.

You can NOT just overwrite the files for an upgrade, read the README file for instructions.

You can get the module

[HERE](#)

Thanks,

John
