- An option to select upto 4 screenshots per submission.
- Import scripts to import from mydownloads, wmpdownloads & PD-Downloads.
- And **A LOT** of bugfixes (have a look at the changelog within the module package)

Where can I get it ?

First, **if you are already using a previous version of WF-Downloads** it is ABSOLUTELY MANDATORY that you read the module documentation (included in the wfdownloads\docs\english\readme.html) before upgrading the module. This release includes some changes that need your attention in order for the module to work perfectly for you.

As a usual recommendation : The SmartFactory **STRONGLY** recommends that you take a full backup before INSTALLING or UPDATING any module.
