

AM Contact module v0.05 (rc1) released - Modules

NEWS\_PDF\_AUTHOR: AndyM

NEWS\_PDF\_DATE: 2007/4/27 20:23:05

Version 0.05 (RC1) of AM Contact has been released. This version has two new preferences and a small bug fix with the about page.

Changes since last release:

=====

- o New preferences for the message text box size, so it can be made to fit your theme better.
- o New preference so an intro message (including HTML) can be added above the contact form.

Requirements:

=====

The GD2 graphics library is required for the image verification. This is compiled in to most PHP installs, but the question & answer verification can be used instead if the image does not work.

AM Contact can be downloaded from [here](#).
