[ARABXOOPS](#) is happy to announce you a new two cool hacks for xcgall module.

**xcgall Pagetitle hack ..improve the searchability of your site!**

xcgall is one of the most popular galleries but it's use name of module as pagetitle for all pages, so this will lead to lose of most vistor's and remember: google, yahoo and msn search engines are vistor's too!!

[Read more](#)

**RSS feed hack for xcgall Module .. share your photos with others!**

Displays latest photos via RSS 2.0 feed.
