

MH10 Theme available for download - Themes

NEWS\_PDF\_AUTHOR: masshostnet

NEWS\_PDF\_DATE: 2007/5/17 1:59:43

We have another theme available for public download. It is the MH10 which features;

- Full screen background
- layered top navigation
- Photoshop source file included

The layered nav allows for header image replacement which will be seen as behind the buttons.

Our demo uses the BOOX module to edit the nav bar so there is no need to access FTP. We recommend the use of BOOX for any such navigation.

It does not have the lower center blocks so if you use those you will need to copy from the default theme.
