

XOOPS OpenId integration first preview - XOOPS

NEWS\_PDF\_AUTHOR: pemen

NEWS\_PDF\_DATE: 2007/7/1 21:40:00

I'm proud to announce the first preview of the [Openid](#) URL based identity system.

When the Openid protocol will be completely integrated in the XOOPS Core, you will use the same Openid URL to login easily in all XOOPS websites that support Openid. This is the end of recurrent XOOPS registration because it support the simple registration extension.

Please have a look at this preview and give me return of your tests on the [XOOPSPRO Forum](#)

The Test is here :
