

EFQ Directory module - version 1.0 stable release available - Modules

NEWS_PDF_AUTHOR: wtravel

NEWS_PDF_DATE: 2007/8/5 19:10:00

I am happy to announce the release of the first stable release of the EFQ Directory module! I want to express my thanks to everyone who helped testing this module. A demo of this module is available at: <http://demo.efqdirectory.com> Already planning is in progress for version 1.1 with new features and extra image sets provided by Sumyog. If you want to see a feature added to this module please add your feature request to the [Feature requests forum](#) or you can request features using the [Request features page](#) Download : [Here](#)
