KC0MAZ, the Community Coordinator Team Leader, has accepted a position as a non-voting member of the Xoops Project Council. He is able to address the council directly regarding matter relating with Community, and the Community Coordinators.

KC0MAZ has shown excellent leadership skills before and after being elected to the team leader of the Community Coordinators. He has dealt with several issues in a timely, common sense fashion.

Having KC0MAZ as an acting member of the Project Council will only enhance the entire project, as we move forward. Progress on the realignment may have been slower than anticipated, having the Community Coordinator Team Leader will help with the communications.
