The SmartFactory is proud to release the new version of its partners management module : SmartPartner 2.0 RC ! **What is SmartPartner?** SmartPartner is an advanced Partners Management System for your XOOPS site. It features all the functionalities of the original XoopsPartners module, combined with the features of the other SmartModules. And now, with version 2.0, many new cool features were added !! **What's new in version 2.0?** - Addition of multiple category for a partner. - Addition of two perms levels: Full view & Partial view - Addition of offers within a partner - Addition of new/updated icon to mark partners - Addition of scrolling partner block - Addition of category list block - Addition of new partner block - Addition of new offer block - Addition of random offer block - Addition of new partner notification - Addition of new offer notification **Where could I see this LIVE ?** We just updated the partners section SmartFactory with our new module so come have a look :http://smartfactory.ca/modules/smartpartner **Where can I get it ?** If you are upgrading from a prior version of the module, please **carefully** read the file upgrade.txt as it contains important informations about the steps that need to be performed in order to successfully upgrade to this version. You can download the module here : SmartPartner 2.0 RC. **Please note** that this version requires the latest SmartObject Framework Module to be installed on your site. The language packs are available here : SmartPartner Language Packs. As usual, any comments, bugs or suggestion are welcomed on the SmartPartner Community Support Forum. Enjoy !
