

New site for scout group - YAXS

NEWS\_PDF\_AUTHOR: kaabaal

NEWS\_PDF\_DATE: 2007/9/22 20:31:34

Finally finished: A site for a [scout-group](#) based on XOOPS 2.2.

Several news clones, custom programmed blocks, not that really 'clean' programmed but effective enough to provide a site where multiple scouts & leaders can post news about activities without having to worry about the front page, since news 'teasers' are auto-generated into a three column lay-outed front page.

I also made a custom theme, supporting separate sub-pages for each age-group (beaver, cubsouts, scouts, rovers, etc.)

Only in Dutch (sorry), but check it out because comments are very welcome.
