

## XOOPS and Formulize at FSOSS Conference 2007 - News

NEWS\_PDF\_AUTHOR: jegelstaff

NEWS\_PDF\_DATE: 2007/9/28 22:33:11

If you're in the Toronto area October 25 and 26, don't miss the Free Software and Open Source Symposium (FSOSS) at York University. Julian Egelstaff will be giving a two hour workshop on building custom applications with XOOPS and Formulize, 10am on the 25th.

FSOSS is now entering it's sixth year, and has become a major event, this year featuring such notable speakers as:

- **Bob Young**, co-founder of RedHat and founder of Lulu.com
- **Marcus Bornfreund**, co-director of Creative Commons, Canada
- **Marcel Gagné**, author and Linux Journal columnist
- Plus gurus and luminaries from a ton of hot tech companies and projects, including: **Nokia, OpenOffice, Mozilla, Facebook, IBM, Bryght and even that old start up, Microsoft**

Also, the Smartfactory will be in attendance, including xoops.org's very own Marcan. Come and show your support for the XOOPS community, listen to some amazing people, and learn a few tricks along the way! Spaces in the Formulize workshop are limited though, so register today.

More info:
