Days ago Glen Starrett it published a call in the main page of xoopgallery
<http://xoopsgallery.org/modules/news/article.php?storyid=25>

This module allows the integration of the administrator of images "Gallery" like a module of xoops.

Its main advantage is that it has an ample development with all the functionalities that can be happened to them, to that is possible to be acceded easily from the blocks.

If they wish to collaborate with the page or the development they can write to him to Glen directly: glen at starretthome.net
