

Release of XOOPS 2.0.18 RC - XOOPS

NEWS_PDF_AUTHOR: phppp

NEWS_PDF_DATE: 2007/12/16 11:23:43

The XOOPS development team is pleased to announce the release of XOOPS 2.0.18 RC.

This is mainly a security fix release. Some main changes include:

- Added sanitizing to integer parameters before being used in DB query to avoid SQL injection
- Added sanitizing to XOOPS form elements to avoid XSS
- Added theme "zetagenesis"
- Improved permission check in comments

Read the [release notes and full changelog](#) for details.

Download the [full package and update package from sourceforge](#).

Participate the organized [QA and Testing](#).

Note:

You may notice some changes in themes. We have removed "phpknox" and "x2t" from the official release package and added a new theme "zetagenesis" by Kris as an experimental step towards XOOPS 3.0 theme engine.

Meanwhile a [XOOPS theme contest](#) will be started to provide new XOOPS default theme.
