

## XOOPS 2.2.5 Security Fix Release - XOOPS

NEWS\_PDF\_AUTHOR: phppp

NEWS\_PDF\_DATE: 2007/12/22 2:35:47

An XSS vulnerability in XOOPS 2.2\* was reported by Omer Singer from The Digi Trust Group, LLC.

All XOOPS 2.2\* users are urged to apply the attached patch.

### Implementation Guide:

Step 1: uncompress the package

Step 2: upload the /html/class/xoopsform/form.php file to your XOOPSROOT/class/xoopsform/

### Note:

1 XOOPS 2.2.6 RC is released at the same time with a more comprehensive solution. Do NOT apply this patch if you use 2.2.6 RC package instead.

2 XOOPS 2.0\* sites are not affected directly, however the relevant improvements have been available in XOOPS 2.0.18 RC.
