

Ottawa Web Site Design Portal - YAXS

NEWS\_PDF\_AUTHOR: jeffgr

NEWS\_PDF\_DATE: 2007/12/28 21:41:27

[Ottawa Web Site Design](#) is a community portal web site for Web Site Designers, Web Developers & Web Site Marketing Experts in the Ottawa, Canada area. It's a place where web experts can read the latest web development news, discuss technical issues relating to web site development or find a local web design job.

Based on Xoops 2.0.18 RC, the site uses the following modules:

- newbbex (forum)
- liaison (contact form)
- catads (web job listings)
- rssc (web dev news)
- blank content module (various content areas)

The templates for each module, as well as the system templates, have been modified.

I tried to give this site a "Web 2.0" look-and-feel...what do you think? :)
