Hi all,

I'm not sure if it's ok to post about Themes for sale, but my Blue Ice Theme is now on sale at www.richardsdomain.com for \$29.95 USD . Follow the links to the ThemesShop.

[extend]

Blue Ice is my first Premium Theme and I've put a lot of time into ensuring it's ready and it has been tested in IE and Firefox browsers and has passed W3C CSS standards and HTML standards for the theme.html and stylesheet.

You can read more about it in my Premium Themes Shop on my site, and also [in this previous article I posted here not long ago](#)

There is only the one Premium Theme available at the moment, but there are more in the works at moment. I still have Free Themes available and that will continue, along with the Premium Themes.

Thank you and I hope you Enjoy my Themes, free or premium :) tc :)
