Documentation (/docs)

- a quick start guide to learn morphogenesis
- a tutorial to have your own color of kubrick theme (in french, sorry)

Warning:

- to use the templates of News, myLinks, myDownloads and myAlbum you have to install Tellafriend module (xoops.peak.ne.jp)
- the installation of a "Morphogenesis theme" requires modification of the file /include/common.php (included in the archive). If you use a version 2.0.17 Xoops, the required files can be downloaded from [here](#) (Hack Core (2.0.17) for Mor.Pho.GEN.e.sis).

Download -> [here](#)

Demonstration Site -> [here](#)

And of course, a BIG thanks to Kris to allow us to enjoy ourselves with the design of Xoops.

Sorry for my poor english, have fun 😊
