

MatchDart 1.5 - Modules

NEWS_PDF_AUTHOR: mawi27

NEWS_PDF_DATE: 2008/3/5 9:17:16

I have just released Match Dart Version 1.5, now available in the download section [here](#).

You can view the Module Demo [here](#).

The new version features additional functions for managing of the matches including display of the legs. Some extended Player Stats are also introduced.

Your Feedback is highly appreciated!

Developed with Xoops 2.0.18

Tested with Xoops 2.0.18, 2.2.x, Simple Xoops 0.82, Impress CMS 1.0

Changes:

- NEW: Legs, additional player stats
- NEW: Legs won / lost to table, drop HighFinish against, 180 against to save space
- NEW: Config Options for table width, Text Size, use of add. player stats
- NEW: db update function (for update from all previous versions)
- NEW: edit match function (for permitted user group)
- DEL: Admin Section 'Matches'
- FIX: PvP Query SQL Statement gave wrong results, now corrected

Have Fun,

Marco
