

new theme isw_green - Themes

NEWS_PDF_AUTHOR: sealion

NEWS_PDF_DATE: 2008/3/26 15:00:00

This is a simple yet stylish theme based on the default xoops theme, but using CSS rather than table-based layout.

You can download it from my site at [Inspiration Web Design](#)

The colour scheme is green. Since all widths are specified using percentages the view will automatically adapt itself to the screen resolution.

You can view an example page [here](#).

The theme has been tested in Internet Explorer, Opera and Firefox. It has been designed for Xoops version 2, so may not be backwards compatible.
