hi,
I modified end added usefull features to myquiz module.
It will be available in near feature.

ADDED FEATURES

- * Getting questions from csv and txt files => so you can easily add more questions
- * Time limit for each quiz => You can set a time limit for quizzes
- * Random question block => that will show one random question from your question database end this one question will be solvable in block
- * More effective result page
- * More usefull admin page

EDITED PROBLEMS

- * Theme problems solved
- * Adding image end size problems solved
- * Admin page bugs solved
- * Language problems solved
- * Block bugs solved
- * ...and more

.....:

And if you have any suggestions for this quiz module ,pls write here before I publish it.
