We are very happy to announce that Catzwolf is officially joining the XOOPS Development Team.

He is a brilliant developer, author of countless XOOPS modules, and we are extremely happy to have him back with us.

Please extend a warm "welcome back" to John.

With this we would like to officially extend an invitation to all past, non-active XOOPS developers to come back and join us on the journey of making XOOPS the best CMS in the world. We are sure that while away you've learned a lot of new things and programming tricks, from which XOOPS could benefit. We've had couple of rough years, but we believe that we are now on track to something really awesome, and we would like you to be part of it.

There will be more exciting things coming....
