

New web site of MSTUCA - YAXS

NEWS\_PDF\_AUTHOR: rewwer

NEWS\_PDF\_DATE: 2008/5/16 23:50:00

New web site of [MSTUCA \(Moscow State Technical University of Civil Aviation\)](#) was published...

It took too long (6-8 month) for me to finish it early, cause when i start it, there was was many thing to do and undo ;), and its still only available only on russian language, but if some one interested may use [translate.google.com](http://translate.google.com) ore [translate.ru](http://translate.ru) service to view it on preferred language...

so whats modules was used to deploy it finally:

NEWS - as usual

SMARTSECTION - static information storage

SMARTPARTNER - no comments

XCGALLERY - photo gallery

eXtCal - for pointing some dates (students, teachers, enterprise, etc)

MYIFRAME - to point and seamlessly interact with a web site some outer resources

USERPAGE - each user can create a personal page about him self or anything else (authorized of course)

SITEMAP - without comments

CONTACT US - contact module to contact with a different departments via web form (with captcha of course)

XHLD0 - to import some aviation head lunc news on site...

RSSFit - out of comments...

XMMEBERSTATS - who is online

DMS - for document management, currently disabled and turned off, cause it was not suitable enough...

SMARTFAQ - soon be applied and enabled to help users with the questions, "HOW to do ..."

so and a couple of administrative modules, to help being it managed more comfortable and securely...

Oh my, it was my longest, hardest, and most brain storming project for my university by me, cause some things did not work correctly, did not adapted for my needs, and so on... but I did it, but only with your help and support, VERY BIG THANKS TO YOU XOOPERS, if I had used other CMS for it, I think, i would lose a half of my brain...

SO THANKS THANKS THANKS again...

sorry my English its not my native languge... :|

if need some Russian translations of modules i can publish it just PM2me
