

Gnoo Theme - Themes

NEWS_PDF_AUTHOR: Burning

NEWS_PDF_DATE: 2008/5/20 16:40:00

Demo site : [here](#)

Download : [here](#)

Specifications

- 3 columns
- 700px
- displaying advertisement in banner

Templates (to override)

- System module
- News 1.56 module

Warning:

Installation of a "Morphogenesis theme" requires modification of the file /include/common.php (included in the archive). If you use a version 2.0.17 Xoops, the required files can be downloaded from [Hack Core \(2.0.17\) for Mor.Pho.GEN.e.sis](#) (Hack Core (2.0.17) for Mor.Pho.GEN.e.sis).

Customizations

Header

To use your own illustration :

- resize it to 700x151 pixels
- modify image name in style.css (line 106)

To get an illustration per module :

- open style.css
- add a **#xo-header** declaration with #name-of-module-directory just before (e.g. News on line 108)

Navigation

How can you choose your format ?

Three case are already available in content-data.css (lines 169 to 186). To apply them, just write appropriate condition in /xotpl/globalnav.html template :

- Case 1 :
- Case 2 :
- Case 3 :

Rounded blocks

You can customize background blocks. To learn more you can read tutorial available in /docs (sorry, only in french).

Credits

Xoops Gnoo :

- is a free adaptation of a theme made by Kloobig.org to Nucleus CMS
- is based on Mor.pho.gen.esis 2.10 gabarit, developped on xoofoo.org
