CVD's Video Tube v1.4 Released - Modules

NEWS_PDF_AUTHOR: tank1955

NEWS_PDF_DATE: 2008/5/22 12:40:00

Video Tube v1.4 addresses all reported defects and provides several enhancements including improved page navigation, submitter info added to Admin screens and addition of View By User feature. View By User effectively creates separate Video Tube pages for each submitter and an index listing page showing submitters along with their activity statistics. The listing page also provides arrowed links for sorting the list by any column in ascending or descending order.

Video Tube is an XOOPS module that provides the ability to manage and view YouTube videos taking advantage of the YouTube video embedding feature. The module provides configurable display formats, user submission interface, admin interface for reviewing and publishing videos, variety of blocks including Random, Most Viewed and Latest, and a Video Help page to assist visitors in making video submissions.
