Hello,

We are proudly announced a new XOOPS theme test and download site. This site's features:

- You may browse themes and you may see a thumbnail of each theme
- If you click Demo link or thumbnail site's theme will change to that theme
- If you click download button, you will download theme file (no need to register, no need to open another web site to download)
- All theme files will be in zip format. This will make installation and unpacking easier on Linux hosts
- Comments are welcome for themes
- Upload new themes are welcome. Uploaded themes will be installed system and than approved

Demo Themes:
