

News 1.6 - Modules

NEWS_PDF_AUTHOR: instantzero

NEWS_PDF_DATE: 2008/7/7 15:40:00

[Instant Zero](#) is very happy to present you a new version of the Xoops News module. This new version, 1.6, introduces some bugs corrections and introduces a long awaited feature, the possibility to display html in its blocks.

Where to download the module ?

The module can be found in its homepage :

<http://xoops.instant-zero.com/modules/pages/index.php?pagenum=2>

How to upgrade ?

Be sure to update the files on your server with the new one and update the module in the Xoops modules manager.

Translations

There was no changes in the translations

Changelog

- It was possible to give any ranking to an article
- After you have vote for an article, you are redirected to the article (and not to the module's index page)
- TCPDF was updated to its version 4.0.001
- The RSS feed per subject now runs with cache (correctly)
- I have corrected a bug in the "Archives" block (the block was displaying _NW_NEWSARCHIVES)
- In the moderation block you now have a link to edit the story
- I have corrected a bug in news_item.html
- In the article page, the script should use less resources to create the link to the previous and next article
- Now you can display html in the blocks

Best regards,
