There were a few bugs in these files when I released the versions 1.1. I apologize for this, but that's the nature of software production. Thanks to everyone for your helpful comments. If you downloaded these files before about 19:00 GMT on 2002.9.18, then these files contained a problem with the submit file function, which has since been fixed. You can download a new version of these files [here](#). --The GiantSpider.
