BagsofBooks.net - A social networking site for book lovers is launched. Using Yogurt, WikiMedia and Xigg.

I have adapted an excellent XOOFOO.org theme but would have liked to use one of Insraqs themes but they do not work with Yogurt

I went of Xoops for a while after my other sites were hacked at macmend.com and jonathanspencer.net. I have now come back round to a XOOPS way of thinking and I am now thinking of converting macmend.com back to XOOPS.
